The thirsty crow

Once upon a time, there was a thirsty crow flying here and there in search of water. After a long search, the crow finally found a pitcher with some water at the bottom. However, the water level was too low for the crow to reach with its beak. The clever crow didn't lose hope. It started dropping pebbles into the pitcher one by one. With each pebble, the water level rose gradually. The crow continued dropping pebbles until the water level reached the top, allowing it to quench its thirst. The crow happily flew away.
