What did you learn?

The 'No Bag Day' was an enriching experience overall. The students learnt a lot of things and without the books. The day was well utilized through the means of Garden Project, Story Narration and Find and get yourself a New Buddy.

Key takeaways:

A clear hands- on experience for the students while they were planting their saplings for their respective classes.

In the session of Story Narration, they got introduced to a novel technique of Story Narration with each step elaborated and explained. The most famous characters were brought in too for the Story Narration session.

Students got connected to the students of different grades through games of their choices.

How is it relevant to your school context?

The above mentioned activities are totally relevant to our school. As students of Don Bosco, every child is to keep learning not just from the books but from experiences and by doing. We are here to contribute to the nature and to the society by being at our best selves ie. by being approachable and by making our environment greener and healthier.

How will you apply it with students in the classroom/beyond?

The activities of Garden Project and Story Narration can always be used as a reference in the Classrooms while teaching Creative Writing, in Science under the topic of Plant Anatomy, in Mathematics, Social Science etc.

What could have been better?

It would have been better if there was more in detail and prior planning rather than keeping for the last day.

What was done well?

The day overall was enriching. All the activities conducted throughout the school were executed well and enjoyed by the students. The students and teachers both got the time and space to know each other better.
