

Don Bosco Senior Secondary School, Nerul

Value Education Programme of Classes V A and V B

Value Education Programme

Fifth Grade

A and B

Conducted by Tr. Archana Rao and

Tr. Gangotri

16th July 2024

Topic: Evolution of Cricket- Test

Match to T20

This program aimed to educate students on the rich history of cricket, its transformation over the years, and the valuable life lessons it imparts. The session highlighted the significance of patience, adaptability, teamwork, and respect for tradition, making it an enriching experience for all attendees.

The emphasis was on the values of patience, strategy, and perseverance, as players endure long sessions and changing conditions. Engaging anecdotes and historical moments highlighted the importance of resilience and long-term planning. The programme delved into the exciting world of T20 cricket, with its rapid pace and high-energy performances.

The program began with a warm welcome and an introduction to the theme. Students portrayed their research work on a historical journey, starting with the origins of Test cricket, progressing through the advent of One-Day Internationals (ODIs), and culminating in the exciting era of Twenty20 (T20) cricket. Each stage of cricket's evolution was linked to important values, illustrating how the sport mirrors broader societal changes and teaches essential life skills. Students learned about the origins of cricket and the traditional format of Test matches, which span over five days and scientific aspects of the game.

It could have been better if the students of classes V A and V B got blessings of Fr. Rector and Principal ma'am as they were excited to showcase their talents and hard-work for this event. The elite members of the management were not available in the campus that day.

The importance of adaptability, performing under pressure, and teamwork in the T20 format was highlighted through a skit. Parents, Teachers and Students

enjoyed discussions on logistics of cricket and rocking dance performance on Indian women's cricket team. The programme concluded with vote of thanks delivered by the Head Boy, Ashton Vieira.

Cricket, in all its forms, is a team sport that relies on collective effort and cooperation to achieve success. The journey of cricket reflects a balance between honouring traditional values and embracing modern innovations.

The value education Programme on "The Evolution of Cricket" was a resounding success, leaving students with a deeper appreciation for the sport and the life lessons it imparts. By understanding cricket's transformation, students gained insights into the importance of patience, adaptability, teamwork, and respect for tradition in their own lives. One of the parents in the audience commented "We look forward to more such enriching programs that combine learning with real-world examples, fostering holistic development in our children."

I suggest that the audio-visual set up of the ground floor Assembly hall to be maintained and checked before any event to avoid any hitches in the event. Sometimes lower classes should also be given an opportunity to conduct their programmes in the fourth-floor assembly hall which is very comfortable to be seated on the floor.
